

# Mercatino CSC

manifesti e locandine storiche del  
Centro Stabile di Cultura

—  
VERSIONE 3

**La chiusura del nostro spazio è la conclusione di un progetto: un esperimento durato 31 anni.**

Abbiamo trasformato un capannone industriale di una zona periferica in un piccolo polo di sperimentazione musicale, artistica e culturale, in grado di generare una comunità di appassionati, soci, volontari e artisti che è cresciuta insieme a noi.

**Il CSC torna al suo stato iniziale di associazione nomade e itinerante.**

Fedeli a noi stessi e ai nostri soci, continueremo ad esplorare musica straordinaria, con la stessa curiosità e passione che da 31 anni ci contraddistinguono.

**Ognuno di questi pezzi che porta con sé una piccola storia e tanti ricordi che ci fanno sorridere.**

Questo mercatino è aperto a tutti, ogni oggetto per noi ha un valore inestimabile e dà la possibilità di avere in casa un piccolo pezzetto di CSC.

Un gesto semplice per sostenere i progetti futuri dell'associazione.

San Vito di Leguzzano,  
12 Febbraio 2021

## Airfish

Dimensione: 70x50 cm

**le due band insieme ! - le due band insieme ! - le due band insieme ! -**

**AIRFISH/Varcare la soglia della speranza.**  
Poliedrico impasto tra jazz, rock, rumorismi ed impressionismi... / ... un' altra via sonora davvero indefinibile. / ... brani aperti ad intrusioni improvvisative, spazi aggressivi e gusto da jam-session declinata... / ... una via narcotica venata di stranio funk.

John Vignola / Rockerilla /

**LAB / Millepiedi.**  
Private di un inizio, sottratte ad un consequenziale svolgimento, decapitate di una fine, le trame sonore seguono percorsi tortuosi e disarticolati, i livelli narrativi si accavallano, i piani si sventolano, le linee si intersecano. Eppure l'orecchio non è sopraffatto da indecifrabili e pesanti gomitoli di rumore, così simili al silenzio. È piuttosto il gicco del folletto che saltella nel bosco, zigzagando agevolmente e senza meta da un ramo all'altro.

## Japanese New Music Festival

Dim: A3

**3 musicians plays 7 different units**

**RUINS ALONE ZUBI ZUYA X TSUYAMA ATSUSHI solo AKATEN**  
**KAWABATA MAKOTO solo ZOFFY ACID MOTHERS TEMPLE SWR**  
**JAPANESE NEW MUSIC FESTIVAL**

**TSUYAMA ATSUSHI solo** Tsuyama is best known for his incredible live in Acid Mothers Temple, but he also has amazing technique of guitar and vocal. He has traveled around the world and assimilated the traditional styles of guitar riffs to create a new style. He adds his own interpretations and lyrical sense to create a beautiful but still "his traditional" music world. Recently he developed a new figure called "prog rock" - "MUSE-TRAVELER". He deconstructed the music space of progressive rock, and restructure it as an ethnographic form.

**KAWABATA MAKOTO solo** Kawabata Makoto is best known for his special double-neck full guitar in Acid Mothers Temple, but he is also active as an unparalleled drum guitarist. Drawing upon a huge reservoir of original techniques including metal glassing and self-loop work that can summon up the sound of a string ensemble or orchestra. His work in this area cannot be simply categorized as minimal, since it is experimental. You'll find it hard to believe that a single guitar can create sonic worlds of such meditative and elegant both.

**RUINS ALONE** Yashida is one of the most innovative drummer/composer/improviser in Japan's new music scene. Pioneer of Drum & Bass duo RUINS was founded by Yashida in '85. Tunes are complicated and hysterical, and songs are sung in the language of their own invention. It's high tension, wild, heavy, speedy, acute, and powerful spontaneous ensemble never sounds like they are gaily twin players. Now RUINS had no bassist and currently he has been playing as RUINS ALONE, playing RUINS songs with sampling back.

**ZUBI ZUYA X** Eclectic poly-rhythmic a cappella ensemble. It covers from Singsarian chant to ethnic music, to do-wop to hardcore screaming heavily using irregular rhythms and polyrhythm. All sorts of blues and abstract musicality overturn the image of a cappella. Its totally meaningless lyrics and desperate performances throw the audience into the deep of the laughter and admiration. It makes the concept of "singing ability" nonsense.

**AKATEN** Formed in 1995 with the motto of "irresponsibilities and "dysfunctions". They easily free themselves from the spell of traditional seriousness of the art. Using daily commodities like acas toothbrush, paper, camera, and plastic bottle as percussions, and shouting their brand names over and over as the "songs." The show performed under the concept of low cost and maximum sound offers AKATEN is the experimental-conscience where punk band that give the sacred images of cheap and simple daily lives.

**ZOFFY** Formed in 1986. Zoffy's music hints both at the theme's deep musical knowledge via their improvised performances of traditional music and European folk, and also at their deep love of rock via their distorted covers of classic rock songs. That's how much the anything but ZOFFY. The group believes that humor is essential in music, and their unprecedented performances always is the beaten track. It's the Ultra Thule that rock music has been aiming for!

**ACID MOTHERS TEMPLE SWR** Acid Mothers Temple have rightly become acclaimed as the greatest, most, and around the world at an amazing pace, and the magnificence of its performance is already being whispered of as legendary. SWR, A.M.T. Family's most powerful battle formation yet, featuring Taka (overhanging acute freakout sound will pulverize the world's legs) and Kawabata from the original A.M.T. and Yashida. From Ruins, wasteful psych groups.
